# INTRODUCTION

The Technical State University of Quevedo started its activities on January 22, 1976, as an Extension of the “Luis Vargas Torres” University of Esmeraldas, opening its doors to science and knowledge with the courses of Forestry Engineering and Zootechnical Engineering.

After multiple efforts by the Quevedo community, the National Congress finally created the Technical State University of Quevedo – UTEQ, through the Republic Law of January 26, 1984, published in Official Registry No. 674 on February 1, 1984.

This higher education institution started its activities as UTEQ with the Faculty of Agricultural Sciences, later renamed the Faculty of Agricultural Sciences (FCA). Subsequently, the Faculties of Animal Sciences (FCP), Business Sciences (FCE), Environmental Sciences (FCAMB), Engineering Sciences (FCI), and the Distance Studies Unit (UED) were created, offering programs in line with the demands of the environment and student demand.

The university also has the Postgraduate Unit, where recognized and approved Master programs are carried out by the Higher Education Council (CES), contributing to the strengthening of a postgraduate culture that meets the needs for advanced education of the institutional, local, regional, and national professional population.

The Technical State University of Quevedo is a university accredited by the Council for Evaluation, Accreditation, and Assurance of the Quality of Higher Education (CACES).

Currently, UTEQ is a pioneering university in the training of professionals, ready to serve our country, leaders, competitive, with critical thinking, and with human values, committed to the development of a just, equitable, and solidarity society, to contribute to improving the quality of life and promoting sustainable development in Ecuador.

The UTEQ trains professionals with a general and comprehensive culture, in various areas of knowledge committed to the development of the territory and the country. As a way to achieve this goal, on this occasion the University presents this series of books for teaching English as a second language.

These books are a beginner’s guide to learning English, focusing on the development of essential communication skills through structured lessons on grammar and vocabulary relevant to the profession and daily life.

### CONVERSATION

#### Read and practice

My old neighborhood

Tom:	You know, Mia, our city was so different 20 years ago. It was much quieter back then.
Mia:	Yes, I remember! There weren't so many tall buildings, and we didn't have so much traffic.

<b>Tom:</b>	Exactly. There used to be more green spaces and small local shops. Now, it feels like everything is turning into big shopping malls.
<b>Mia:</b>	It's true. I miss those little cafes where we used to hang out. Now, they've all been replaced by chain stores.
<b>Tom:</b>	And do you remember the old park? It was so peaceful. But now, it's crowded with tourists every weekend.
<b>Mia:</b>	Yeah, it's hard to believe how much has changed. Even the streets look different now. They've built so many new roads.
<b>Tom:</b>	The city's growing fast. I wonder how it will look in another 10 years.
<b>Mia:</b>	Who knows? Maybe by then, there will be even more skyscrapers, and the few old places left might disappear.
<b>Tom:</b>	That's possible. But hopefully, they'll also bring back some green spaces. We really need more parks.
<b>Mia:</b>	I agree. I just hope the future of our city will balance both progress and nature.

GRAMMAR

Time Contrast

To describe how our lives have changed during the years, we can use different times for it. E.g.

Past Tense	Present	Future
In the past, I used to wear tennis, shoes and short.	Nowadays, I wear casual clothes.	In the future, I am going to wear formal clothes.
A few years ago, I was living in the U.S.A.	In these days, I am living in Mexico.	In ten more years, I will live in Europe.
Ten years ago, I did not have a car.	Now, I have a new car.	Soon, I might buy a Ferrari.
In 2002, I started working in a high school.	Today, I am working in the same high school.	In five more years, I will work in a university in Monterrey – Mexico.

We can make time contrasts by using different time phrases

In the past tense	In the present tense	In the future tense
<ul style="list-style-type: none"><li>• A few years ago</li><li>• In the past</li><li>• In the nineteenth century</li><li>• In the 1960s</li><li>• Last night</li></ul>	<ul style="list-style-type: none"><li>• These days</li><li>• Today</li><li>• Nowadays</li><li>• This year</li></ul>	<ul style="list-style-type: none"><li>• Soon</li><li>• In twenty years</li><li>• In the future</li><li>• In the next hundred year</li><li>• In a year</li></ul>

<b>GRANDPA:</b>	Well, you're a young girl going by yourself to the other side of the world. When I was your age, we used to take the train to another city or state, but that was it. Not a lot of people flew internationally.
<b>KATIE:</b>	Yeah, but flying to other countries is common now, Grandpa. And these days lots of people work and live overseas.
<b>GRANDPA:</b>	Yes, but you don't know anyone. When I moved to Chicago at your age, it took me months to make friends.
<b>KATIE:</b>	Well, big international cities like Tokyo have people from all over the world. I've already gone online and found two groups of people from the U.S. who meet up at different places in the city. It will be easy for me to make friends.
<b>GRANDPA:</b>	Okay but promise me that we'll talk often! We'll want to know how you are. Your grandma and I can coordinate times that work for you.
<b>KATIE:</b>	I promise.

<b>GRANDPA:</b>	I love that we can see you with video calls, and that they're free! I re-member even calling someone in another part of the country used to be expensive. Now we can talk to you and see your face on the other side of the world for nothing.
<b>KATIE:</b>	I know, it's great! . . . You know, Grandpa, flying isn't as expensive ei-ther nowadays. You and Grandma could come visit me in Tokyo. I'm going to be there for six months.
<b>GRANDPA:</b>	Your grandma does love Japanese food. And I would love for you to be our tour guide! Hmm. I'll look at tickets.
<b>KATIE:</b>	Great idea! We could plan everything over our video calls! It would be great to see you on the other side of the world.

If everything goes well, I may stay in this job for a long time. I hope that I enjoy it because I really like working with people. My family says that if I stay organized, I will do great in this job.

Our actions carry profound consequences that often extend far beyond our immediate intentions. Each decision we make ripples through our personal lives, affecting relationships, opportunities, and even our mental well-being. On a broader scale, our choices can impact the environment, influence societal trends, and shape the future for generations to come. For instance, everyday habits such as waste production or energy consumption contribute to environmental changes, while social behaviors can either foster community growth or perpetuate divisions. ## READING

### The Team at Apex Innovations

At Apex Innovations, a busy tech startup, a team of five worked together on exciting projects. Each person had their own special personality, making the workplace fun but sometimes a bit chaotic.

Max was very creative. He loved coming up with new ideas and often made cool sketches and prototypes. However, he was also disorganized and sometimes lost important files, which frustrated his teammates.

Sarah was the efficient project manager. She was good at keeping everyone on track. But sometimes, she could be impatient and wanted things done right away. Still, her reliable nature meant the team could always count on her.

Jake was a hardworking developer. He often stayed late to make sure everything was perfect. Although he was usually level-headed, he sometimes felt moody when things went wrong, which caused some tension with Sarah.

Lily was the short-tempered designer. She had great ideas, but her strict feedback could be hard for others to hear. She was also very generous with her time, always ready to help, but her quick temper made teamwork difficult at times.

Despite their differences, the team knew they were better together. They learned to appreciate each other's strengths, even when things got chaotic. Max sometimes forgot tasks, but Sarah would kindly remind him. Jake would help Lily during tough moments, turning her passion into useful ideas.

As they worked on many projects, they began to see that their different traits balanced each other out. In the end, they became a strong team, showing that even a disorganized group can succeed if they accept each other's differences.

- » Students will use several tourism vocabularies to talk about their dream trip.

## Lesson A

### *Have you ever visited these places?*

#### WARM-UP

**Amazing facts about some wonderful landmarks in Ecuador.**

##### 1. Ingapirca Ruins

- Where: Cañar Province
- What: The largest Inca ruins in Ecuador

Ingapirca is a site rich in history. It was built by both the Inca and the Cañari people, first the Cañari and later the Inca. You can see the different styles of architecture between the two peoples which makes for a very interesting exploration. The Inca people had very smooth stones and no mortar, where the Cañari use mortar and their stones are a little rougher.

##### 2. Mitad Del Mundo (Middle of the World)

- Where: Pichincha Province (Quito)
- What: Middle of the World Monument

The middle of the world monument marks where French explorers determined the location of the equatorial line in 1736 (after which Ecuador is named). Comically, the explorer's calculations were off by 250 meters as is the monument. Even so, it was quite a feat at the time.

### 3. Leon Dormido (Kicker Rock)

- Where: San Cristobal Island (Galapagos)
- What: A large volcanic cone in the ocean

Kicker Rock is a highly sought after snorkeling site in the Galapagos. Much like an iceberg, what you see above the water only tells part of the story. Above the water, Kicker Rock is 152 meters tall – making it an ideal roost for frigatebirds, blue-footed boobies, and other native birds.

I've been to Mitad del Mundo! It's a cool place where you can stand in both the Northern and Southern Hemispheres at the same time. I really enjoyed learning about its history.

##### Movie Trivia

Ke Huy Quan, who has an impressive martial arts background, did most of his own stunts for the wild fanny pack fight scene in *Everything Everywhere All at Once*.

In *Titanic*, Jack accidentally telling Rose to lie on the "bed" instead of the "couch" before he draws apparently wasn't in the script. Leonardo DiCaprio allegedly said it by mistake, and director James Cameron decided to keep it in.

In *E.T. the Extra-Terrestrial*, Steven Spielberg enlisted real doctors from USC Medical Center to play the doctors who try to save E.T., because Spielberg "felt that actors talking about technical medical matters didn't seem natural."

You might think there's not much room for improv in an animated film, but in *The Lion King*, Nathan Lane reportedly ad-libbed Timon saying, "What do you want me to do, dress in drag and do the hula?" It ultimately led to the addition of the song-and-dance routine.

## Participles as Adjectives

<p>Some participles (like 'bored' or 'boring') can be used as adjectives. These are used in a slightly different way from normal adjectives. We usually use the <b>past participle</b> (ending in -ed) to talk about how someone feels</p>	<ul style="list-style-type: none"><li>• I was really <b>bored</b> during the flight (NOT: I was really boring during the flight).</li><li>• She's <b>interested</b> in history (NOT: She's really interesting in history).</li><li>• John's <b>frightened</b> of spiders (NOT: John's frightening of spiders).</li></ul>
<p>We usually use the <b>present participle</b> (ending in -ing) to talk about the person, thing, or situation which has caused the feeling</p>	<ul style="list-style-type: none"><li>• It was such a long, <b>boring</b> flight (so I was bored).</li><li>• I read a really <b>interesting</b> book about history (so I was interested).</li><li>• Many people find spiders <b>frightening</b> (so they're frightened when they see spiders).</li></ul>
<p>Be careful! 'I'm boring' is very different from 'I'm bored'! 'I'm boring' means I cause other people to be bored. This is not good! Here are some examples of when one person causes a feeling in another person:</p>	<ul style="list-style-type: none"><li>• I was talking to such a boring guy at the party. He talked about himself for an hour!</li></ul>

These participle adjectives make their comparative by using 'more' (not -er) and their superlative by using 'most' (not -est): I was more frightened of dogs than spiders when I was a child.

- That book is **more boring** than this one.
- I think Dr Smith's lesson was **more interesting** than Dr Brown's.
- For 24 hours on the flight to Australia, I was the **most bored** I've ever been.
- I think this is the **most interesting** talk we've heard today.

## READING

### Read the article.

#### Family rules

Would you like to have a boss who didn't specify what the rules were in your workplace but punished you if you broke these unknown rules? You would feel pretty frustrated, wouldn't you? That's how children feel when they are punished for breaking rules that have never been explained to them. Family rules are necessary to make clear what is expected of children and to outline punishments for misbehavior and rewards for good behavior.

When creating a list of family rules remember to be specific both in what is expected and the punishment or reward. Gather the family together when creating the list of family rules. Involve children in the creation of the rules and get their input as to appropriate rewards or punishments. Explain to children why you'd like to include certain rules. They'll accept them more if they understand that they are for their own benefit and safety.

### 1. Read the article again, then choose the correct answer for each question

A. Why do we need a list of family rules?

- » For legal reasons.
- » For the grandparents.
- » To clarify what's expected of children.

B. Which one wasn't a tip for creating family rules given in the article?

- » Be specific.
- » Involve children in the creation of rules.
- » Make children keep their rooms clean.
- » Explain to children why the rule is important.

C. Why should we explain to children the reason behind the rules?

- » We can make more rules.
- » They will be more willing to accept them.
- » Make children keep their rooms clean.
- » We can punish them better.

D. What could happen if you don't enforce the rules?

- » It wouldn't be legal in the federal court system.
- » You could be arrested for fraud.
- » Children won't take the contract seriously.

### The missed opportunity

Jessica had always dreamed of becoming a famous singer. When she was a teenager, she had the chance to audition for a popular music competition. Her friends and family were sure she would be a star, but she decided to stay home and focus on her studies instead. Years later, Jessica often wondered about that missed opportunity. She thought to herself, "I could have been on stage and possibly won the competition." Her friend Amy had told her at the time, "You should go for it, Jess! You might regret it if you don't." Jessica replied, "I might, but my studies are important too." Now, looking back, Jessica realized that she might have achieved her dream if she had taken that chance. "I'm terribly sorry," he apologized, "I was so caught up in my thoughts, I didn't see you!" he managed to stammer.

Smiling, Sheila responded, "It's OK. Nothing's broken... No really, I wasn't watching my step either."

Suddenly they both stopped making excuses and stared at each other.

“Don’t I know you from somewhere?” inquired Tim while Sheila exclaimed, “You’re Tim, Jack’s brother, aren’t you?!”

They both began to laugh as they had met each other the week before at a party that Jack had given.

Still laughing, Tim suggested, “Why don’t we have a cup a coffee and donut?” to which Sheila replied, “I thought you wanted to continue your diet!” They both were still laughing by the time they reached the Swimming Donut Cafe.

The content of this book offers an engaging approach to intermediate-level English learning, focusing on both grammar and vocabulary in real-world contexts. It covers various essential topics across its eight units, each designed to enhance learners' proficiency in understanding and using English in practical situations. Unit 1, titled Time Will Tell the Outcome, introduces the concept of time contrasts, using conditional sentences and exploring the relationship between past, present, and future actions. This reinforces the understanding of how time affects actions and consequences. In Unit 2, Working Well with Others, the book shifts to personal and professional skills, highlighting gerunds and clauses with "because." This unit emphasizes communication skills, which are crucial in the workplace, making the grammatical focus on gerunds and conditional clauses highly relevant. Unit 3, Places to Explore, dives into passive constructions in both past and present tenses, allowing students to describe landmarks and explore world knowledge. The use of the passive voice is particularly important for learners to understand formal and impersonal language structures. The importance of storytelling and recounting past experiences is emphasized in Unit 4, True or Fake Events, where the past continuous and present perfect continuous are used to distinguish between recent and ongoing actions. In later units, like Unit 5, Pure Enjoyment, students explore entertainment-related vocabulary while using participles and relative pronouns. Unit 6, Now I Get It!, focuses on modals and adverbs, important for expressing certainty and obligation. The book concludes with complex grammatical structures such as unreal conditionals, past modals, and reported speech in Units 7 and 8. These are critical for expressing hypothetical situations, excuses, and making formal requests. The structured progression of grammar topics ensures that learners not only understand the mechanics of English but also apply them in meaningful, practical scenarios, solidifying their intermediate skills.
